

TOM LAMERS

JAVA DEVELOPER

ABOUT ME

I am a passionate person, looking for a new chapter in life, with new exciting opportunities.

In my past career I already had the opportunity to help develop data collecting applications, festival websites and apps, as well as small online games that could be used for all different purposes used in the world of events

I am convinced a job in ICT can do that for me. At the moment i am still a junior developer, with a very steep learning curve, happy to take on any challenge.

TIME FOR A NEW CHALLENGE AND READY TO GO!
